Introduction

These checklists were compiled by SSE to help companies diagnose their current reporting and create a path towards full implementation of IFRS S1 and S2. They should however not be used as a replacement for the standards, rather the checklists in this document are tools to assess only what gaps may exist in an issuer’s current reporting.

Conducting a gap assessment

Check your reporting content to see what is missing. Companies can use Checklist 1 to determine where they stand on their sustainability-related financial disclosure journey. Once the company identifies missing information, they should use Checklist 2 to identify whether and how to include this information in a way that’s decision-useful within the company’s general purpose financial report.

CHECKLIST 1: DISCLOSURE CONTENT

1.1 Governance

a) Do your current disclosures address the governance body responsible for oversight of sustainability-related risks and opportunities by explaining:

- The individual(s), board, committee or equivalent body’s oversight of sustainability-related risks and opportunities including:
  - Responsibilities as reflected in the terms of reference, mandates or policies? S1.27(a)(i), S2.6(a)(i)
  - Their skills and competencies? S1.27(a)(ii), S2.6(a)(ii)
  - Frequency and form of communication? S1.27(a)(iii), S2.6(a)(iii)
  - Process of overseeing the company’s strategy, making decisions and setting targets for managing sustainability-related risks and opportunities? S1.27(a)(iv)-(v), S2.6(a)(iv)-(v)

b) Do your current disclosures address the management’s role in governance by explaining:

- The controls and procedures used to manage and oversee sustainability-related risks and opportunities, including:
  - Delegation of roles to management bodies? S1.27(b)(i), S2.6(b)(i)
  - Which controls and procedures are used and how are they integrated with other control functions? S1.27(b)(ii), S2.6(b)(ii)

1.2 Strategy

a) Do your current disclosures address sustainability-related risks and opportunities by explaining:

- The sustainability-related risks and opportunities that could reasonably be expected to affect the company’s prospects, including:
  - A description of the effects? S1.30(a)
  - Time horizons (short, medium or long term)? S1.30(b), S1.30(c), S2.10(c),(d)
  - If it is a climate-related risk, is it physical or transition? S2.10(b)
  - Are you using the Industry-based Guidance on Implementing IFRS S2 to measure, monitor and assess climate-related risks and opportunities? S2.12
### Checklist 1: Disclosure Content

#### b) Do your current disclosures address effects on the business model and value chain by explaining:

- The current and anticipated **effects** of sustainability-related risks and opportunities **on the entity’s business model and value chain**, including:
  - A description of the effects? [S1.32(a), S2.13(a)]
  - Where in the business model and value chain it occurs? [S1.32(b), S2.13(b)]

#### c) Do your current disclosures address effects on the strategy and decision-making by explaining:

- Your company’s **actual and planned response** to sustainability-related risks and opportunities and how this is reflected in its strategy and decision-making, including:
  - Past and planned future responses to risks and opportunities and to meet targets set or required? [S1.33(a), S2.14(a)]
  - For climate-related risks and opportunities, current and anticipated…
    - changes to the business model and resource allocation;
    - direct and indirect mitigation and adaptation efforts; and
    - transition plans in place? [S2.14(a)(i-v)]
  - How you plan to **resource** the above [S2.14(b)]
  - **Progress** against the plans you reported in your previous reporting? [S1.33(b), S2.14(c)]
  - The **trade-offs** considered? [S1.33(c)]

#### d) Do your current disclosures address effects on financial position, financial performance and cash flows by explaining:

- **Current financial effects** of sustainability-related risks and opportunities, including:
  - How the financial position, performance and cash flows are affected? [S1.34(a), S1.35(a), S2.15(a), S2.16(a)]
  - Any material adjustment to the carrying amounts of assets and liabilities? [S1.35(b), S2.15(b), S2.16(b)]

- **Anticipated financial effects** of sustainability-related financial risks and opportunities over the short-, medium- and long-term, including:
  - The expected effects? [S1.34(b), S1.35(d), S2.15(b), S2.16(d)]
  - The strategy used to manage the effects? [S1.35(c), S2.16(c)]
  - Planned sources of funding to implement the strategy and investment and disposal plans? [S1.35(c)(i-ii), S2.16(c)(i-ii)]

#### e) Do your current disclosures address organizational resilience by explaining:

- The company’s capacity to **adjust to the uncertainties** arising from sustainability-related risks, including:
  - The assessment used to determine resilience? [S1.41, S2.22(a)]

- Whether **scenario analysis** was used, including:
  - What are the implications of the scenario analysis, including uncertainties, and potential responses to the outcomes identified? [S2.22(a)(i-ii)]
  - Your ability to adjust your strategy and business model? [S2.22(a)(iii)]
  - How and when the company conducted its climate-related scenario analysis? What inputs, assumptions and reporting periods were used and why? [S2.22(b)(i-iii)]
### 1.3 Risk management

**a) Do your current disclosures address the identification, assessment, prioritization and monitoring of sustainability-related risks and opportunities by explaining:**

- The processes and related policies used to identify, assess, prioritize and monitor sustainability-related **risks** including information about:
  - inputs and parameters used?  
  - S1.44(a)(i), S2.25(a)(i)
  - whether and how scenario analysis is used?  
  - S1.44(a)(ii), S2.25(a)(ii)
  - how they are assessed, prioritized and monitored?  
  - S1.44(a)(iii-v), S2.25(a)(iii-v)
  - If any changes to these processes have occurred?  
  - S1.44(a)(vi), S2.25(a)(vi)
- The processes used for identifying, assessing, prioritizing and monitoring sustainability-related **opportunities**?
  - S1.44(b), S2.25(b)
- How these processes are **integrated** into the company’s overall risk management process?
  - S1.44(c), S2.25(c)

### 1.4 Climate-related metrics and targets

**a) Do your current disclosures address progress and measurement of sustainability-related risks and opportunities by explaining:**

- Performance on **climate-related metrics**, including:
  - Greenhouse Gas (GHG) emissions (Scopes 1, 2 & 3)  
  - S2.29(a)
  - Amount and percentage of assets and business activities vulnerable to transition and physical climate risks and opportunities  
  - S2.29(b-d)
  - Amount of capital expenditure, financing or investment deployed towards climate-related risks and opportunities  
  - S2.29(e)
  - Internal carbon price and method  
  - S2.29(f)
  - Climate-linked remuneration  
  - S2.29(g)
- Performance on applicable **industry-based metrics**, as described in the Industry-based Guidance on Implementing IFRS S2?
  - S2.32
- For each sustainability risk or opportunity that could reasonably be expected to affect the entity’s prospects, and its performance in relation to it, the metrics used, how it’s defined and how it is calculated, and performance in relation to it?  
  - S1.46(b)

---

1 The SSE Toolkit on Sustainability-Related Financial Disclosures includes a tool on Climate metrics and targets
### CHECKLIST 1: DISCLOSURE CONTENT

#### b) Do your current disclosures address targets for sustainability-related risks and opportunities by explaining:

<table>
<thead>
<tr>
<th>Targets used to monitor progress to achieving strategic goals and those required by law or regulation, including:</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ the target chosen, its objective, the metric used to set it and any revisions</td>
</tr>
<tr>
<td>☐ for climate-related targets, what part of the company the target applies to, measurement type and alignment to international agreements</td>
</tr>
<tr>
<td>☐ the target period, base period and milestones or interim targets</td>
</tr>
</tbody>
</table>

For **climate-related targets**, the approach to setting and reviewing targets, including:

| Validation and reviewing process | S2.34(a,b) |
| Process of analyzing trends, monitoring progress, metrics used and revisions made | S2.34(c,d), S2.35 |

For **GHG emissions targets**, details on:

| Which gasses and scopes are covered in gross or net? | S2.36(a-c) |
| Use of sectoral decarbonization approaches? | S2.36(d) |
| Plans to use carbon credits, dependency on such credits, and policy or plans for verification, type and credibility of carbon credits | S2.36(e) |
How to report

As companies finalize their disclosures, they can use Checklist 2 to help ensure that they are disclosing information that’s most useful for users of general-purpose financial reports.

Make sure to review IFRS S1.10-24 and IFRS S1.54-86 thoroughly.

### Checklist 2: Disclosure Quality

<table>
<thead>
<tr>
<th>2.1 Quality assessment</th>
<th>IFRS References</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>a) Does the information help investors make decisions by being:</strong></td>
<td></td>
</tr>
<tr>
<td>☐ Relevant?</td>
<td>S1.D4-D7</td>
</tr>
<tr>
<td>☐ Material?</td>
<td>S1.D8</td>
</tr>
<tr>
<td>☐ Faithfully represented?</td>
<td>S1.D9-D15</td>
</tr>
<tr>
<td>☐ Comparable?</td>
<td>S1.D17-D20</td>
</tr>
<tr>
<td>☐ Verifiable?</td>
<td>S1.D21-D24</td>
</tr>
<tr>
<td>☐ Timely?</td>
<td>S1.D25</td>
</tr>
<tr>
<td>☐ Understandable?</td>
<td>S1.D26-D33</td>
</tr>
<tr>
<td>☐ Reported for the same period and for the same entity as the related financial statements?</td>
<td>S1.64</td>
</tr>
<tr>
<td>☐ Reported in the general-purpose financial statements?</td>
<td>S1.60-63</td>
</tr>
<tr>
<td><strong>b) Does the information disclosed enable investors to understand connections between:</strong></td>
<td></td>
</tr>
<tr>
<td>☐ Various sustainability-related risks and opportunities.</td>
<td>S1.21-24, S1.21(a)</td>
</tr>
<tr>
<td>☐ Disclosure pillars (including governance, strategy, risk management, metrics and targets).</td>
<td>S1.21-24, S1.21(b)(i)</td>
</tr>
<tr>
<td>☐ Disclosures provided by the entity across all its sustainability-related financial disclosures and other general purpose financial reports published by the entity such as its related financial statements.</td>
<td>S1.21-24, S1.21(b)(ii)</td>
</tr>
<tr>
<td><strong>c) Do sustainability-related financial disclosures include all material information about core content and any additional information needed to make the report understandable to investors, including standards, pronouncements, industry practices or other sources of guidance used to prepare sustainability-related financial information?</strong></td>
<td></td>
</tr>
<tr>
<td>☐ Has a statement of compliance been made?</td>
<td>S1.72-73</td>
</tr>
</tbody>
</table>

**SSE Toolkit on Sustainability-Related Financial Disclosures**

This tool is part of a toolkit that the UN SSE, together with its partners, developed to support stock exchanges and their market participants in the implementation of the IFRS Sustainability Disclosure Standards. The toolkit includes training tools that are designed to complement the SSE Academy’s training program on the IFRS Sustainability Disclosure Standards. The SSE will continue to work with its partners to add new tools as necessary to provide ongoing support to stock exchanges and their markets on this topic.

Acknowledgements

This paper was prepared in the context of the United Nations Sustainable Stock Exchanges (SSE). The paper was prepared by Tiffany Grabski (SSE Academy Head) and Mike Zimonyi (SSE Senior Specialist) under the overall supervision of Anthony Miller (SSE Chief Coordinator) and James Zhan (UNCTAD Director of Investment and Enterprise and Chair of the SSE Governing Board).

Additional research support and inputs were provided by Vanina Vegezzi (SSE Project Officer) and Corli Le Roux (SSE Senior Specialist). The report was typeset and designed by Sylvana Kempka (SSE Design Assistant).

The SSE gratefully acknowledges the financial support for the production of this report provided by Bloomberg Philanthropies.

About UN SSE

The SSE initiative is a UN Partnership Programme organised by UNCTAD, the UN Global Compact, UNEP FI and the PRI. The SSE’s mission is to provide a global platform for exploring how exchanges, in collaboration with investors, companies (issuers), regulators, policy makers and relevant international organisations can enhance performance on environmental, social and corporate governance issues and encourage sustainable investment, including the financing of the UN Sustainable Development Goals. The SSE seeks to achieve this mission through an integrated programme of conducting evidence-based policy analysis, facilitating a network and forum for multi-stakeholder consensus-building, and providing technical guidelines, advisory services and training.

Note

Published in 2024, the designations employed and the presentation of the material in this paper do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries. This paper is intended for learning purposes. The inclusion of company names and examples does not constitute an endorsement of the individual exchanges or organisations by UNCTAD, UN Global Compact, UNEP or the PRI.
