Sustainable finance is gaining momentum globally. Market participants ranging from supranational organisations through to financial institutions, as well as individual investors, are increasingly recognising the importance of allocating capital in a manner which finances a sustainable future.

TISE Sustainable has been established to provide a reputable market segment which enables the flow of capital into investments that promote environmental, social or sustainable activities.

With a straightforward application process and no additional fee, the segment is available to all TISE-listed issuers and securities which demonstrate their qualifying credentials.

The issuer must inform TISE, without delay, of any changes to the details or status of their TISE Sustainable qualifying credentials [for example, change of independent verifier, framework, status or rating attained].

TISE encourages issuers to utilise these logos within their marketing materials, including on their website for example alongside any other information, news and reports related to the issuer's sustainable status.
